Fall Arrest Harness

This is one example of a number of harnesses available.

The featured harness has chest & leg adjustments and a rear fall arrest attachment point.

All our harnesses are made from quality polyester webbing which exceeds minimum requirements in the European Standards.

They are designed for comfort and ease of wear, and should be used in conjunction with an appropriate lanyard.

We can offer a much larger range of harnesses and lanyards. Please [phone](#) or [email](#) for further details.
